"FIFTY-FIFTY" AT BELLEVUE THEATRE

Remember the big comedy play to
be staged at the Rex Theatre, Bellevue,
on Thursday night next. The
play, "Fifty-Fifty" is a three-act
farce comedy of love, luck and laugh-
ter, as written by Frederick G. John-
son, and is being presented by Belle-
vue home talent in the interest of the
I.O.O.F.

The various characters will be rep-
resented as follows:

Harry Brown, an artist—Mr. Fred
Padgett.
Paul Green, an author—Mr. Harry
Harrison.
Patrick O'Malley, a janitor—Mr.
Don C. Cant.
Mrs. Podge, a landlady—Mrs. F.
Padgett.
Sophie P'anal a dancer—Miss Ella
Emmerson.
May Dexter, an enthusiast—Miss
Mary Harris.
Mrs. Hawley, a collector—Miss
Beatrice Radford.
Smudge, a valet—Mr. Dave Curry.
Cap, a wanderer—Mr. David Hut-
ton.

Josephine, a seeder—Miss May
Turner.
Time, the present; place, New York
City and the Adirondack Mountains.
Begratful scenery has been made up
by Mr. G. K. Srett, the local painter,
and decoration. The Bellevue West
Canadian Band will be present to
furnish music during the intervals.

A real treat, promising waves of
laughter and an ocean of entertain-
ment, is in store and a crowded
house on Thursday night next is as-
sured.

THE SALVATION ARMY MUSICAL FESTIVAL DRAWS GOOD HOUSE

The Coleman opera house was filled
to overflowing with music enthusiasts
on Monday evening, when an excel-
lent programme was staged by Belle-
vue and Blaimore talent in behalf of
the Salvation Army's Self-Denial
campaign.

No one was disappointed. The
programme was lengthy and of an
exceptional character and one of the
best staged in Coleman for years.
Each artist performed his or her part
in a very creditable manner.

The Bellevue Band was received
with applause and Coleman has to
get on their toes if they want to keep
pace with this fine combination.

The programme consisted in part
as follows: Quartette by Goodwin
Brothers, a saxophone solo, Miss Enid
Cole in readings and songs, etc. Miss
Cole's work was presented in real
professional style, also that of little
Bessie Gare in "How Would You Like
to be a Dog," which brought roars of
laughter. More will be heard from
this little artist. The Misses H. and
E. McDonald thrilled the audience
with their pianoforte duet, also Mr.
Johnson with his violin solo. Mr.
Phillips, of Coleman, held the audi-
ence spell-bound as they listened to
his patriotic songs. Mrs. Robinson
and Mrs. Bannan, of Blaimore, did
credit to the programme in a vocal
duet, "Lovely Night." Mrs. Bannan
also rendered a solo.

The entire programme was carried
through in good style, with Mayor
Burns piloting in an able manner.

Capt. Watt thanked the mayor and
various artists in the festival and
all who in any way helped to make it
a success. The amount raised was
\$78.00.

We are asked to announce that
Blaimore will be canvassed for the
Self-Denial Fund next week.

Mrs. W. T. Young accompanied
Anglin to Calgary on Monday night,
where on Tuesday he competed at the
Alberta Musical Festival in violin.
We understand that Anglin did very
well, being only a few marks behind
the provincial top-notchers in his
grade.

PRESENTATIONS TO CHOIR AC- COMPANIST AND CONDUCTOR

An interesting event took place at
the home of Mr. and Mrs. E. Mun-
caster on Thursday night last, when
members of the Blaimore choir, es-
sential winners, presented Mrs. Mun-
caster with a beautiful silver vase in
recognition of services rendered as
accompanist for the choir at the recent
festival and practices previously.
They also presented Mr. Robert Dick-
son, their conductor, with a beautiful
silver-mounted mahogany baton. Both
were taken by surprise and could
scarcely find words to express their
feelings of gratitude. Tea and a so-
cial evening followed, which latter
included a brief business session, when
it was decided to form what will be
known as the Blaimore Choral So-
ciety, with the following officers:

Honorary President—Mr. G. A.
Vissac.
Honorary Vice-President—Mr. R.
Green.

President—Mr. S. G. Bannan.
Vice-President—Mr. R. W. H. Pink-
ney.

Secretary—Treasurer—Mr. T. J.
Williams.

Committee—Mrs. Bannan, Mrs.
Kerr, Mrs. Elliott.

Conductor—Mr. R. Dickson.
Accompanist—Mrs. Muncaster.

The choir will prepare a cantata for
Christmas.

We are asked to announce that any-
one wishing to become members of
the Society will please communicate
with the secretary or conductor.

CHEVROLET BREAKS ALL RECORDS

A constantly increasing demand for
the Chevrolet car, continent-wide in
its insistence, has enabled the Chev-
rolet Motor Company to break all
production records for two months in
succession in Canada and the United
States.

Output in March reached a total of
107,900 automobiles, an average daily
production of 4316 cars. A new daily
record for production was also estab-
lished on March 31st, when 1075
Chevrolets were run off the assembly
lines in all factories. Records show
that Chevrolet production in Canada
during March of this year is 98 per
cent ahead of March, 1926, and con-
siderably larger than any previous
month. The United States output
topped all previous months. A gain
of 42,733 cars, or 65.6 per cent, was
registered over March, 1926, and an
increase of 64,401 cars, or 148 per
cent, over March, 1925.

Retail deliveries for the first quar-
ter have been keeping pace with pro-
duction, according to statistics now
available. In the province of Ontar-
io, for instance, registrations of new
Chevrolet automobiles for the months
of January, February and March
show an increase of 166 per cent over
the same period of 1926. Chevrolet
registrations of new cars for March
in the province of Ontario, where re-
cords were available, exceeded those
of any other car.

Meanwhile, figures coming in from
points throughout the United States
show the same demand for Chevrolet
on the other side of the border. The
magnitude of the increase in sales is
indicated in reports from thirty-two
of the most important trading areas
in the United States, which show an
average increase of 97.4 per cent in
these centres for the first two months
of 1927, as compared with 1926.

The introduction this month of two
popular new models, a sport roadster
and a beautiful black-and-red Imperial
landau, is expected to further ac-
centuate the preference for Chevrol-
et which is apparent for Chevrol-
et in New Orleans.

Dr. McLeod, dentist, of Coleman,
will move his family to Blaimore, if
he can secure a house, which at the
present are somewhat at a premium.

LOCAL ELKS ENTERTAIN MEMBERS FROM COLEMAN

At the regular meeting of the lo-
cal lodge of Elks on Tuesday night,
the lodge was treated with a reau-
visit from the brother Bills of Cole-
man Lodge.

Following the regular meet-
ing, which was addressed by Exalted Ru-
ler Ross Powell and other promi-
nent visitors, a social evening was held,
consisting of whist, rummy, bridge,
songs, readings, etc., that was much
enjoyed. Coleman brought down a
choice battery of musical talent, in-
cluding Messrs. Phillips, Thomas and
others.

The matter of a picnic for the
three lodges, Pincher Creek, Blaimore
and Coleman, will be considered
shortly.

"Spunk" Sparrow, "Curly" Headley
and "Dutch" Gainer, of the Calgary
Hockey Club, have been sold to Lloyd
Turner's Minneapolis's Millers.

ST ANNE'S CHURCH SALE ON TUESDAY NEXT

The ladies of St. Anne's church will
hold a sale of home cooking and tea
in the Moore Hall on Tuesday next,
May the 17th. Tea will be served
from 3 to 6. At 8 p.m., a card party
and social will be held. Please keep
this date open and bring your friends.

Tenders Wanted

Tenders addressed to the under-
signed and endorsed as above will be
received up to 12 o'clock noon of Fri-
day, May the 20th, 1927. Plans and
specifications may be had on appli-
cation to the Local Manager, Alberta
Government Telephones, Blaimore.

An accepted check for fifteen dol-
lars (\$15.00) shall accompany each
request for plans and specifications,
which shall be returned when con-
tract is awarded.

The right is retained to reject any
or all bids or to waive any defects.
R. B. BAXTER,
General Manager,
Alberta Government Telephones,
Edmonton, Alberta.

Blue Sky Laws Badly Needed

With better times now prevailing and business expanding in all directions, work plentiful and wages good, high pressure salesmen of stock in all manner of companies are again much in evidence. Some of the propositions laid before people who have a few dollars to invest are sound enough; others are speculative to a degree, with the probabilities that any money invested will be lost, or, at best, will not be productive of dividends for years to come. The more glowing the prospects held up to the gaze of the innocent investor, the greater the possibility that the investment is a decidedly risky one; in fact, not an investment at all.

Unfortunately, it is an extremely difficult matter for anybody but an expert, or those who make it their business to keep fully informed, to distinguish between the good and the bad of the stock selling propositions presented to the general public. The only safe course to follow before making investment in any stock is to consult a banker or some reputable financial institution. It is better to be safe than sorry.

It is furthermore unfortunate that the company laws of Canada do not provide adequate protection of the public against these professional promoters of questionable stocks and so-called securities. Canada has reason to be proud of its general code of laws, but in this one respect the Dominion of Parliament has been sadly negligent in its duty in that it has not provided safeguards against the people of Canada being victimized by persons and corporations offering questionable stock for sale to an unsuspecting public.

Some provincial governments have endeavored to protect their people, only to have their best efforts largely defeated because of the refusal of the Dominion authorities to supplement those efforts. As a result thousands of Canadians every year are robbed of millions of hard-earned savings.

For example, some years ago the Saskatchewan Legislature passed an act prohibiting the sale of stocks of any kind within the Province unless the company offering the same first submitted their proposals to the Local Government Board and obtained the approval of that board and its consent to the stock being offered for public subscription. Certain companies incorporated under Dominion charters challenged the right of the Province to so restrict their stock selling activities, and, upon an appeal to the courts, the Saskatchewan law was declared invalid in so far as companies incorporated at Ottawa are concerned. The situation, therefore, is that any company holding a provincial charter and whose stock the Saskatchewan Local Government Board will not permit being offered for sale, has only to obtain Dominion incorporation at Ottawa to defy the Saskatchewan Legislature and sell any kind of stock it likes, good or bad.

It will be recalled that much the same situation existed when the Province first adopted prohibitory liquor laws. The Province could and did prohibit the retail sale of liquor, but they were powerless to stop its manufacture within their boundaries, and equally powerless to prevent it being brought into the province from other provinces or foreign countries, because this would be to interfere with trade and commerce which come solely within Federal jurisdiction. Public opinion, however, became so aroused that the Dominion authorities were forced to bow before it, with the result that the law was amended to provide that where a Province adopted prohibition it became unlawful under Dominion law to ship liquor into that Province.

There is need for a similar enactment in relation to Company Incorporation. All that is needed is a very simple amendment by the Parliament of Canada to the effect that, where any Province passes an Act prohibiting the sale of stock in any company unless the same has first been approved by Provincial authority, such law shall be applicable to a Company incorporated under Dominion charter in so far as that province is concerned.

To the average citizen there would appear to be no insurmountable difficulty in the passage of such a simple and reasonable amendment. In fact, the average citizen would imagine that the Dominion Government would be just as anxious as Provincial Governments to protect their people from being victimized by unscrupulous company promoters and stock salesmen. The amazing thing is that, notwithstanding pressure from Provincial Governments, representations from reputable business organizations, strong editorial appeals by financial and other papers, the Ottawa Government declines to do anything, but allows a deputy minister at Ottawa to stubbornly block all efforts made to provide ample safeguards to protect Canadian citizens.

Representations have for some months past been made to one Provincial Government regarding the operations of one of these high pressure stock selling concerns, and protesting against the same, but all the Provincial authorities can do is to admit they are powerless because the Company in question operates under a Dominion charter.

And within recent weeks this very Company has been shown up in reputable financial journals as having secured over \$3,000,000 from Canadian citizens, of which considerably more than \$1,000,000 went into the pockets of a subsidiary company which was selling the stock. In fact, the parent manufacturing company has less than one dollar to show for every two dollars invested by the public. Not only so but the Company has never declared a dividend, and for some time past has been making a loss. Yet this Company is still being permitted to sell stock throughout Canada and is doing so by misrepresenting people on the strength of its promises of big dividends to come.

It is high time that a certain cabinet minister at Ottawa freed himself from the influence of a reactionary and autocratic deputy head, and drafted legislation to be presented to Parliament at its next session upholding and supporting the Provinces in their efforts to put an end to this stock-jobbing and legalized robbery, which today is a blot on the fair name of Canada.

Most men would be glad to pay a large income tax for the sake of having that kind of income.

It takes a man with a lot of brass to dispose of a gold brick.

Canadian Offices in London

Offices of Immigration and Trade
and Commerce May be
Combined

Hon. Robert Burke, Canadian minister of immigration, and Hon. James Macleod, minister of trade and commerce, while in England this summer, will jointly consider the feasibility of combining in one building the branch offices in Britain and on the continent of their respective departments. It is understood. Such a procedure would eliminate duplication of premises and to a certain extent duplication of office staffs.

Mr. Macleod has already received instructions that the allocation of \$100,000 for advertising Canadian goods in Britain will not go very far in making a widespread appeal. It is understood that one suggestion favoring is that when big English stores take a large space for general advertisements, Canada should pay a proportion of the cost for whatever amount of space calls attention specially to Canadian goods.

Pain In The Muscles, Stiffness In Joints, Quickly Subdued By Nerviline

Those who have tested out numerous lotions will agree that where stiffness, soreness or less chronic condition there is nothing to compare with Nerviline. Nerviline penetrates so deeply, because it has about five times the strength of the ordinary city preparation, it has come to be known as King over All Pain. For Rheumatic conditions, muscular and joint stiffness, Nerviline works wonders. A trial proves this. Get 35 cent bottle from your dealer to-day.

Canada's Gift to Australia

Maple Trees From Vancouver Island
to be Planted at Canberra

Maple trees now growing in the woods of Vancouver Island will form Canada's gift to the Australian people when they open their new national capital at Canberra this month.

Under plans outlined by the Canadian Government, Premier Oliver is arranging for the shipment of a dozen island maples to Australia immediately. The trees will be planted in the grounds of the Canberra Parliament Buildings.

NO MEDICINE LIKE BABY'S OWN TABLETS

For Either the Newborn Babe or
the Growing Child

There is no other medicine to equal Baby's Own Tablets for little ones—whether it be for the newborn babe or the growing child. The Tablets always do good. They are absolutely free from opiates or other harmful drugs and the mother can always feel safe in giving them.

Concerning the Tablets, Mrs. John Armour, R.R. 1, South Monaghan, Ont., says:—"We have three fine healthy children, to whom, when a medicine is needed, we have given only Baby's Own Tablets. The Tablets are the best medicine you can keep in any home where there are young children."

Baby's Own Tablets are a mild but thorough laxative which regulate the stomach and bowels; banish constipation and indigestion; break up colds and simple fever and make bedtime easy. They are sold by medicine dealers or direct by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Breaking New Land

The Dominion Government through the Land Settlement Board has arranged for the breaking of 50 quarter sections of land north of Edmonton—the biggest single breaking contract in the history of the province.

Bill—"You said I haven't the brains of a flea."
Ma—"No. I didn't. I said you have."

HAD BAD SPELLS WITH HER HEART

Mrs. R. G. Hall, Bolton Centre, Ont., writes:—"Some time ago I had bad spells with my heart which I believe was caused by nervousness. I tried everything I could think of, but could get no relief. One of my friends persuaded me to get a box of

Survey of Hudson Strait

Objection is Taken to the Term
"Arctic" in Describing Conditions
President J. A. Stenman, of the Saskatchewan section, United Farmers of Canada, points out in the Canadian Press despatch of April 25, regarding the air survey of Hudson Strait on the ground that it describes the conditions of the strait as Arctic for most of the year.

In reply, J. T. H. Livesey, general manager of the Canadian Press, expresses sorrow if the despatch can be construed in the sense complained of, explaining that the use of the term "Arctic" in reference to weather conditions has been encountered. In the strait, is used more in descriptive than a geographical sense. But the expression itself, he says, has the sanction of the authorities, for Arctic winter and the Arctic zone are not necessarily confined to the Arctic circle.

In conclusion, Mr. Livesey says:—"The object of the expedition is to report more fully than has been done hitherto on the period of navigability of Hudson strait, and of those of us, in eastern and western Canada, who have faith in the Hudson Bay route, will look forward anxiously to very encouraging results which, however, will not be attained in the winter months without exposure to pretty rigorous climatic conditions."

Praises this Asthma Remedy, a grateful user of Dr. J. D. Kellogg's Asthma Remedy finds it the only remedy that will give relief, though for thirteen years he had sought other help. Years of needless suffering may be prevented by using this wonderful remedy at the first warning of trouble. Its use is simple. Its cost is slight, and it can be purchased almost anywhere.

A Puzzle for Scientists

Life Cannot Be Defined Says Professor of London University

That a living organism is not to be defined from a non-living substance so readily as is commonly supposed was demonstrated by Professor J. C. Drummond, of the biochemistry department of the London University, in a lecture on "Biochemical Aspects of the Nature of Life." The point he made was that differences in living organisms appeared to be traceable ultimately to differences in the proteins in the constitution of their cells, and that this might give a mechanical aspect to many biological problems passing into the field of chemistry. Professor Drummond said one could not define "life," because we were but beginning to recognize that only the roughest differentiation could be made between the living and the non-living.

If they attempted to judge which phenomena were characteristic of the living and which were typical of the dead systems, they found that such characteristics as assimilation, respiration, growth, reproduction, irritability and movement were, collectively, typical of the living, and offered a rough and ready method of differentiation, though some of these characteristics might be shown by non-living systems.

Worms cause fretfulness and rob the infant of sleep, the great nourisher. Mother Graves' Worm Expeller will clear the stomach and intestines and restore healthfulness.

Canadian Tobacco Abroad

Canada Sending Large Shipments to Great Britain

Canada is sending increasing supplies of tobacco to the West of England, according to the Trade Commissioner at Bristol. One organization has built a factory in Ontario, have their own buyers, and are packing the leaf, Canadian Bury, to suit the English trade. Consumers in England are getting used to Canadian tobacco and with the Empire preferential duty, which amounts to 45 cents per pound less than the duty on foreign tobacco, increasing quantities of Canadian Bury will find their way to the United Kingdom.

When you hear a married man say that he hasn't made up his mind about a thing he means he has not asked his wife about it.

For all pain—Minard's Liniment.

Governor of Rotary

T. A. Torgeson, of Estevan, is Elected District Governor

T. A. Torgeson, of Estevan, Sask., was declared elected as district governor for the coming year at the close of the first session of the fourth district of Rotary convention at Winnipeg. One thousand persons were in attendance.

Sounding the note of high idealism which characterized the objects of Rotary, past international president D. A. Adams, appealed for the embodiment of these ideals in the life of every Rotarian, in a stirring address.

The governor's report showed Red Deer, Alberta, to have won the George Rocks trophy for attendance during the year, while Prince Albert club won the Osborne trophy for the largest percentage increase in attendance.

MacMillan Going North Again

Will Lead Expedition Into Arctic
Latter Part of June

Setting sail from Wicacasset, Maine, next June 28, Commander Donald B. MacMillan, Arctic explorer, will lead a new expedition into the far north to spend 15 months exploring and studying uncharted Arctic wastes, the Field Museum of Natural History, sponsoring the expedition, has announced.

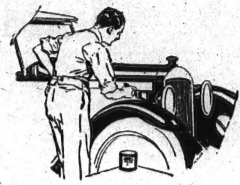

A race still living in primitive state and virtually unknown to science except as Naskapi Indians, will be sought out and studied; the fossil mountains of Baffin Land, a region of creatures or evidences believed to have lived there thousands of years ago, and the remnants of the last great ice sheet which in a past geological age swept down across part of North America, will be explored and studied.

University Women's Prize

Miss Phyllis Gregory, of Vancouver, B.C., was announced recently at the meeting of the Toronto University Women's club, as the winner of the 1927 scholarship of the University Women's clubs of the Dominion. The scholarship will provide Miss Gregory with a course at the University of London, London, England.

Although the man who marries a widow seldom says anything about his wife's first husband, there are cases when he wishes he was still alive.

All that comes to him who waits is a request to move on.

Make it new with DUCO

THE PUBLIC have been quick to appreciate the many advantages of Brush DUCO, and today hundreds of cars are being re-finished right at home.

You will be amazed at the ease with which DUCO can be brushed on your car and you will be proud of the work when it is finished.

We have issued an instruction folder which you can obtain from any DUCO dealer and it is advisable to read this carefully. You can't go wrong if you follow the simple instructions.

If the surface of your car is checked or cracked, give it a coat of Flint Auto and Metal Surface before applying Brush DUCO.

Good dealers everywhere can supply you with Brush DUCO, DUCO Thinner, DUCO Polish No. 7, and Flint Auto and Metal Surface.

HOW FARMERS HAVE BENEFITTED BY WHEAT POOL

Kansas City, Mo.—Benefits which have accrued to the farmers of Saskatchewan through the formation of the Saskatchewan Wheat Pool were outlined to the international wheat pool conference here by Premier James G. Gardiner of Saskatchewan, in a speech which was well received. The Premier also suggested that the pooling system might be of great benefit in other parts of the continent.

"Measured by cost of shipment and percentage of crop which is exported Saskatchewan is farther removed from its market than any other of the great wheat producing areas of the world. We are one of the great wheat producing areas. The province of Saskatchewan has produced as much as 271,500,000 bushels of wheat in one year with a population of 500,000 and an acreage of 17,700,000. That is an average of 21 bushels per acre or 340 bushels per head of population. Of that amount 241,500,000 was exported from the province, the greater part of it going to Liverpool. The total exportable surplus of the United States during that same year was 156,500,000 bushels. With our 800,000 people we produce more than one half of all the wheat grown in the Dominion of Canada and every bushel of it is hard spring wheat.

"About 80 per cent of our farmers and about the same percentage of our acreage is sown up in the contract wheat pool. Ever since the wheat pool was formed I have marketed all my own grain through the pool. The Government has signed up the institutional farms in the pool. In other words, our people are sold to the contract pool and their Premier and Government agree with them that it is necessary to bring about prosperity within our province.

"Whether the wheat pool remains the permanent method of marketing our wheat or not, it has proved a God-send in the form of a steady influence in the province of Saskatchewan. It has given us a look into the future with a renewed optimism and a spirit based upon the confidence inspired by having done something worth while for ourselves."

Regain Nationality By Year's Residence

Special Provision for Canadian Born Persons Naturalized in States
Ottawa.—Canadian born persons who have been naturalized in the United States and have returned to Canada may now be re-admitted to British nationality after one year's residence in the Dominion.

Former Canadians, however, must furnish convincing evidence of their intention to reside in Canada by the acquisition of property in this country and by the submission of an affidavit or statement that they propose to stay here.

This is the gist of an order-in-council making a special provision in respect to Canadian born persons who have become naturalized in the United States.

Under the old provision of the Naturalization Act, five years' residence in Canada was a requisite before re-admission to British nationality could be granted.

Will Attempt Return Flight

British Airman Plans Trans-Atlantic Trip in Ordinary Seaplane

London.—The Evening News says that within the next few weeks one of the best known British airmen will attempt to fly to Canada and back in an ordinary seaplane.

Besides two pilots and a navigator, the plane will carry a passenger who will pay his own fare.

It will be the first east to west air trip between Europe and North America, the first return flight and the first passenger-carrying flight, the paper says.

The outward trip will be by way of the Azores, where the plane will refuel. The return from Montreal will be direct to England.

The name of the airman is not given and the paper says all plans are being kept secret.

Consul General to Retire

Ottawa.—Hon. John G. Foster, United States consul-general at Ottawa for more than 25 years, is retiring July 1 of this year. It was made known here it is understood his successor has been selected, but no public announcement of his name has yet been made.

Wilkinson, Toronto Mail and Empire; W. H. Preston, Brantford Express; A. R. Ford, London Morning Free Press.

Manitoba—E. H. Macklin, Manitoba Free Press; M. E. Nichols, Winnipeg Tribune.

Saskatchewan—Durford Hoole, Regina Leader.

Alberta—J. H. Woods, Calgary Herald.

British Columbia—F. J. Burd, Vancouver Province.

A subsequent meeting of the newly-elected board of directors, officers for the year were re-elected as follows:

Honorary president, E. H. Macklin; president, J. H. Woods; first vice-president, John Scott; second vice-president, Henri Gagnon; general manager and secretary, J. P. B. Livesey.

Cattle Law Not Authorized

British Cattle Men Protest to Government Against Delay

London.—A number of resolutions passed by borough councils, protesting against the delay in authorizing importation into Britain of non-tubercular Canadian cows and heifers, have been received by the Government.

This was the reply to questions in the House of Commons made by Sir Harry Harcourt on behalf of the Minister of Agriculture.

Sir Harry further said the minister had not the slightest intention of altering his decision not to permit the admission of non-pedigreed breeding cattle from Canada.

The questioner referred to the opinions of Chief Medical Officers and chief veterinary officers to the effect that it was very dangerous to introduce Canadian heifers to Britain because they were much more prone to tuberculosis than British heifers. Another member asked whether the understanding reached at the 1923 Imperial conference was that the only cattle to be imported were fat cattle for slaughter, and pedigree stock and got cows and heifers.

Season Late in B.C.

Fruit and Vegetable Growers Are Worried Over Weather Conditions

Vancouver.—The Province says: "Lateness of the season is beginning to cause uneasiness among fruit and vegetable packers."

"It is pointed out that last year they began packing gooseberries during the first week in June and continued afterward with cherries and strawberries."

"This season, with nearly a week of May gone, there is practically no progress being made in the development of the fruits. Little growth has taken place inside the past month and crop though warm weather were to come immediately, the ripe crop would not be available until toward the end of June."

"The lateness of the vegetable crop is being viewed with the same concern and fears of low yield."

More Letters Written

Reduction in Postage Rates Increases Volume of Mail Matter

Ottawa.—The establishment of penny postage in Canada has had the effect of cutting down the revenues but, also of increasing the volume of mail matter.

The revenue from letters prior to the reduction on July 1 last was roughly \$15,000,000 per year. The reduction from three to two cents applied to the same volume of business would therefore cut the receipts by \$6,000,000. The showing, however, promises to be much more favorable.

Re-opening Rhinoceros Cathedral

Path.—The Rhinoceros Cathedral is now completely restored and will be reopened for religious services on Ascension Day, May 26, it is announced.

Solemn High mass will be celebrated by Cardinal Taché in the presence of a delegation from the committee which administered the gift from John D. Rockefeller, Jr., and the British and Danish committees who contributed financially toward the reconstruction work.

Whaling Fleet Prepares

North Pacific Fleet Conditioned for Season's Operations

Victoria.—The North Pacific whaling fleet is now being conditioned for the summer's hunting expeditions off the coast of Vancouver Island and Northern British Columbia and by the middle of May all the vessels will be at sea, scouting for the giant mammals.

East in May four of the little steel steamers of the Consolidated Whaling Company's fleet will leave port for Rose Harbor, the base of the whaling operations at Queen Charlotte Islands, and a few days later the Naden harbor station will be opened with two more craft operating out of that port.

Begin Hike Around World

Second Trip For New York Man Will Occupy Ten Years

New York.—Marcus Barone, hiker, who has made one journey around the globe afoot started another, accompanied by a shepherd dog.

Barone hiked from 1912 to 1927 to make his first trip. He plans to spend 10 years on the second. Man and dog carry packs on their backs and sleep in the open every night. The dog wears shoes.

They will go first to Canada and thence to Alaska, traveling China, Japan, India and Persia, not returning until they have visited every country in the world. Barone will work his way across oceans.

DEBT PAYMENTS HEAVY DRAIN ON GREAT BRITAIN

London.—Expressing great misgivings because of the divergence of opinion and estrangement of sentiment growing up in regard to the war debts, the British Government, in a note to the United States, challenged the accuracy of the statement of March 17 by Andrew W. Mellon, secretary of the United States treasury, that Great Britain's debt payments to the United States will not constitute a drain on British economic resources.

Citing what the British Government regards as errors and inaccuracies in Mr. Mellon's statement, the note expresses "trust that the United States Government will take steps to remove the unfair impression that has been created" by the issuance of Mr. Mellon's statement.

The note, which was delivered to Secretary of State Kellogg, by H. G. Clifton on behalf of Ambassador Howard, who is absent from Washington, takes up the specific position of Great Britain on war debts as mentioned by Secretary Mellon in a letter to Dr. John G. Hibben, president of Princeton University in reply to a statement by Dr. Hibben and 116 members of the Princeton faculty. This latter statement endorsed the open letter of the faculty of political science of Columbia University, recommending reconsideration and revision of the debt settlement made with the former allies of the United States.

GOVERNOR-GENERAL VISITS WINNIPEG

His Excellency Viscount Willington, Governor-General of Canada made his first official visit to Winnipeg on Saturday afternoon, April 23rd, and he received an enthusiastic reception from thousands gathered in front of the station of the Canadian National Railway and lining both sides of the route along Main Street to the City Hall.

The photograph shows the viceregal party on the platform of the station immediately after the arrival of the train. From left to right those in the group are: Viscount Willington, Lady Willington, and His Honor T. A. Burrows, Lieutenant-Governor of Manitoba.

PLAN EXCHANGE OF GREETINGS FOR DOMINION DAY

Ottawa.—Acting on behalf of the national committees for the celebration of the Jubilee of Confederation, Right Hon. Senator George P. Graham, chairman, is arranging for a unique exchange of greetings, which will serve on July 1 to emphasize the unity which exists throughout the Dominion. The committee in the first place urge that on the morning of Dominion Day, wherever celebrations are held, the message of His Majesty the King shall be read. In addition, Senator Graham has suggested that there be an exchange of telegraphic greetings between himself and the Lieutenant-Governors of the provinces. To the suggestion His Excellency Viscount Willington has cordially acquiesced as have the Lieutenant-Governors.

In order that the chain of greetings may be complete, it has also been suggested that the Lieutenant-Governors exchange greetings with each other, and that there shall further be an exchange between Premier King and the Premiers of the nine provinces of Confederation.

Moslem Women Revolt

Fifteen Thousand in Parade Buried Veils in Public Square

Moscow.—Thousands of Moslem women in Russia Turkistan seized the May Day celebrations as an opportunity to declare a revolt against the tyranny of the veil, say advisers received from Samarkand.

Fifteen thousand women paraded unveiled in Samarkand. At Tashkent, in the presence of 25,000 persons, the defiant women threw their veils in a heap in the public square and burned them amid cheers and groans from the spectators.

At Khokland 150 veils were burned.

Cruiser and Subs for Sale

Formerly Part of Canadian Navy Are Now Obsolete

Halifax, N.S.—Tenders are being called by the Dominion salvage office for the purchase of H.M.C.S. *Arcturion*, *Aurora*, and two submarines, Nos. 14 and 15, now considered obsolete, formerly a part of the Canadian navy. The cruiser and submarines have been laid up at the dockyard here for some years, and are now thrown open for the inspection of prospective purchasers. Tenders close on May 30. The *Aurora* and the two submarines were presented to Canada by the admiralty shortly after the conclusion of the war.

Go to Privy Council

Victoria.—Decisions of the three Canadian courts declaring the British Columbia fuel, oil tax unconstitutional will be appealed to the imperial privy council by the provincial government in July, it was announced today. Leave to take the case to higher court in the British Empire was granted here by the Privy Council this morning.

Wedded to His Post

Premier Ferguson of Ontario Has No Plans on Federal Office

Cooksville, Ont.—"I have no designs on any public position," Premier Howard Ferguson stated in an address here to Peel County Conservatives gathered in compliment to Senator L. Kennedy, member of the Legislature, and Sam Charters, member of the Dominion House.

The Premier made the statement, so he said, to all the suspicions of the "acute-eyed young gentlemen of the press," who had read in recent speeches of his the "mixed purpose" of making overtures to Ottawa.

Later in his address the speaker made another reference to the subject. Following a review of his policy of making "new men, from wayward boys," and of making life brighter for the youth born under physical handicaps, the Premier added:

"Things like these are what we need to the Province of Ontario and service, instead of seeking wild fields where I would not be as happy and contented."

Will Set Fruit Prices

Selling Method of British Columbia Board Should Benefit Consumer

Winnipeg.—Prairie housewives will pay no more for their fruit this year than in other seasons, declared P. M. Black, former provincial treasurer, and now chairman of the board of control, which will fix minimum prices for all British Columbia fruits and vegetables and issue licenses to shippers. Mr. Black, who has just returned from the Coast, said the scientific method of selling under the British Columbia board should benefit the consumers. The growers of the Coast were solidly behind the new scheme, he said; since they believe it offers a way out from their difficulties caused by years of disorganized marketing.

Developing Idea of Universal Insurance

Vancouver Liberal Believes System Will Soon Be Leading Plan of Party

Vancouver.—"Prediction that within a short time the outstanding policy of the Liberal party of Canada would be a scheme of universal public insurance covering not only old age pensions but also maternity benefits, invalidity, accident and unemployment, was made by Captain L. A. McKenzie, M.L.A., in addressing the Vancouver South Liberal association. The foundation for such a policy has been laid by Sir Richard Cartwright many years ago with such an annuity scheme, he said. The leaders of liberalism in Canada had since developed the idea until the logical outcome must be a universal insurance scheme.

HON. J. A. ROBB STARTED LIFE AS A MILLER'S BOY

Kingston, Ont.—Hon. J. A. Robb, Minister of Finance today was in a mood of confessions. He told the students of Queen's—where he received the honorary degree of LL.D.—how narrowly he escaped becoming a preacher and how, as a miller's boy, he once took toll of the farmers' grain.

"At the age of 16," said Mr. Robb, "I was foolish enough to leave the high school, after refusing the very kind offer of my father's friend, a clergyman, who, having no children of his own, offered to pay all my expenses through Queens, providing I would agree to enter the ministry and become a preacher. But I did not lean that way, feeling then as I do now that I was not good enough to preach the gospel to others. And so I left the farm with its comforts, its joys, its drudgery and its great independence, to learn a trade and make a living as a dusty miller."

Mr. Robb turned the pages of another chapter. "During the first years in the mill," he went on humorously, "my duty was to sweep the floors and toll the farmers' grain. Now my duty is to toll the taxpayers of Canada and sweep in all the taxes they can't dodge."

Mr. Robb urged that in their studies of national problems, the students of Queens should study human nature more than geography and statistics.

He pressed that national unity was the special duty of Jubilee year, that all should work for a greater and better Confederation—a Confederation not of land but of people.

UNITED STATES IS PREPARED TO AID AGRICULTURE

Kansas City, Mo.—Unlimited credit at low rates of interest payable over a long period—25 or more millions from the federal government for co-operating marketing of grain—that was the alluring picture presented by William Jardine, federal secretary of Agriculture, in his address before the international wheat pool conference banquet here. The delegates cheered the remarks wildly.

"Whenever you are ready and know what you want, come to Washington and ask for 25 or more millions at a low rate of interest to be paid back over a long period of years so that you do not have to go to the banks and sign a note. You will have no trouble in getting it. Do not worry, but come to Washington," he urged them.

These were the words of the head of the United States department. Further he continued:

"I say to you this administration is anxious to help you but you must know where you are going and what you want."

"You can see what progress our friends in Canada have made. We at Washington are willing and anxious to help you solve your problems but don't talk of a world wheat pool selling agency until you set your house in order. You have complete access to all the machinery the Canadian railroads have worked out. You can profit by their experience. This is the message I bring you from Washington tonight."

Want "First Canadians" To Help Celebrate

Indians and Eskimos Will Take Part in Jubilee of Confederation

Ottawa.—It is anticipated that Indians and even Eskimos will take part in many centres of Canada take a prominent part in the forthcoming celebration of the jubilee of confederation. It is regarded as highly desirable that as many of these "first Canadians" as possible shall take part in the celebration of the 60th birthday of Confederation. All applications from local centres for Eskimo participation by the Indian people will be conducted by the department, it is said.

Excepting in the more or less settled points at Aklayak, Arctic Red River, and other places on the Mackenzie, it is expected that the Eskimos will take much part.

The suggestion, thrown out by the national committee for the celebration that a maple tree be planted on July 1 at every point where celebrations are held is meeting with lively response. Already a very large number of committees have the matter in hand and are selecting the most suitable spot for the planting of "confederation trees." The practice, it is believed, will be widespread.

Heads Grain Board

Leslie H. Boyd Appointed for Another Period of Ten Years

Ottawa.—On the recommendation of the Minister of Trade and Commerce, the Government has appointed for another period of ten years Leslie H. Boyd, K.C., as chairman of the Board of Grain Commissioners with headquarters at Fort William. Mr. Boyd's salary is fixed at \$10,000 per year. Before going to that position in 1917, Mr. Boyd was a prominent lawyer in Montreal.

Some efforts to have him replaced by a western politician were made some weeks ago, but were not entertained and the re-appointment was not unexpected.

B.C. Horses for Russia

Victoria.—British Columbia horses will be shipped to Russia shortly under plans announced by Russian purchasers who arrived in Kamloops to confer with local horse breeders. Several thousand animals will be bought by the Russians in this province if this number can be secured. They will be shipped via Montreal.

Barely Escapes Train Wreck

Seville, Spain.—Only a few minutes after the royal train bearing the Prince of Wales and the Spanish sovereigns to Madrid had passed the point a train wreck occurred at the station of Palma Riva. Two persons were killed and four injured when the Andalusian express collided with a freight train.

ROYAL BANK OF CANADA
FELLOWSHIP IN ECONOMICS

The expansion in all fields of Canadian industry and trade is taking place at such a rapid rate that the need for trained men is becoming a matter of major importance to the country. Thoughtful discussion of the internal and external problems of Canada should assist in developing an informed public opinion which will demand sound solutions and adjustments of the economic problems which confront government and industry. With a view to promoting this serious discussion of Canada's economic problems, to encouraging advanced courses in economics, banking and trade, and to assisting capable students who desire to improve themselves in these fields, The Royal Bank of Canada will grant a graduate fellowship to any student in residence at a Canadian university who submits the best essay on one of several subjects during the coming academic year. The fellowship will have a value of \$1000 and will permit the student to do research in the economic department of any of the Canadian universities. The subjects for the essays in 1927-28 will be announced May 20th, 1927.

The following conditions have been established for the contest:

The essay must not exceed three thousand words in length, and preference will be given to papers which are non-technical in terminology and most practical in treatment.

The fellowship will amount to \$1000, and may be taken in the Department of economics or of political science at any Canadian university. In case a student is unable to pursue the advanced study of economics, he may choose a solution of \$200 in cash, and a fellowship of \$750 will go to the student submitting the second best paper.

The papers must be submitted to the Economist's department of The Royal Bank of Canada before March 1st, 1928; they should be typewritten in triplicate and numbered. The name of the student should be submitted in a sealed envelope with the paper.

The winning paper becomes the property of the bank and at the option of the bank may be published as the bank sees fit. A non-winning paper remains the property of the student submitting it.

The four subjects for 1927-28 will be announced in May, after consultation with the economic departments of the various colleges and universities.

The papers will be judged by the economic department of the bank, and five of the best papers will be submitted for final judgment to a committee of prominent men not connected with The Royal Bank of Canada.

Answers to any questions concerning the interpretation of the rules of the competition will be given by the head office of the Royal Bank.

AND STILL THEY COME

Fifty-eight more immigrants arrived in Cardston on Thursday's train, April 28th, without capital or destination ascertained. At this rate, the country will be flooded with foreigners, who are utterly helpless themselves to improve their position, dependent entirely upon the assistance of residents already established. The burden of this policy falls particularly upon the laborer, for farmers finding someone willing to work for \$10 to \$15 a month, naturally take one of the men on, letting out the former employees. These men are too often

employed at menial work, and are a burden to the community. They are a source of trouble, thus throwing out of employment many workmen already established here. We know of returned soldiers completely disarmed because German and other immigrants arriving here have taken their places. This certainly does not seem to be a very fair proposition.

Everyone admits that Canada needs immigration, but it must be of the right sort—men with capital enough to start farming or in business of their own. Conditions here today do not permit of the present policy of shipping in thousands of untrained and poverty stricken people who become a charge upon the population. The government's millions now being spent to bring such immigrants here could with much more justly be used to establish farmers already here or to build up a satisfied and prosperous country. As it is, with the country flooded with cheap labor, and unskilled labor at that, hundreds of people in this district must find employment elsewhere. Who is responsible for this condition of affairs? An immediate investigation into the immigration method is imperative.—Cardston News.

UNSUITABLE IMMIGRATION

A despatch from Winnipeg says: "Immigrants are coming in their thousands. The streets of Winnipeg are crowded with men looking for work. The streets around the railway employment offices are simply blocked with idle men looking for a chance to work." Not a farmer among them, apparently.

Another news item near home states that 557 men have been placed on railroad work during the past month. Of these 400 were new arrivals. This happened in Calgary. By next fall, perhaps earlier, those 400 foreigners, unable to speak our language, unfitted for any kind of labor, available here in the winter months, may be walking the streets, filling the police stations clamoring for bread. Who brought them here? What governmental authority permitted them to land?

Every one of them, doubtless, has come over here on false representations. The old method of mendacious pamphleteering is evidently still going on. This is being done while pretensions are made by all the immigrant authorities in Canada that only farmers with money or farm laborers and most of them British, are being brought here. Consistent reports from cities of the west contradict both statements. The majority of the present incomers are not farmers, but unskilled laborers. The majority of them are not British, but Central Europeans. There should be a thorough investigation.—Calgary Albertan.

A HUMORIST DESCRIBES GOLF

A humorist thus describes the game of golf: "Golf is an affliction—the study of two lifetimes, in which you may exhaust your salary but never your exclamations. It is a bragging contest, a series of poses, calling for luck, alibis and courage to wear knickerbockers. It is a test of temper, a trial of cuss-words, a revelation of boy-legs. It affords a chance to gamble and act the cave man. It means going into bunkers, debt and restaurants; getting away from church, sleep and home-cooking; getting close to insanity, a sweeping away of home ties, a genuine recreation with veracity. It is a cure for ambition, an antidote to work. It includes companionship with coin collectors and absent-minded scores, opportunity for assault, and battery to an opponent. It promotes not only physical torture, but is fierce on morals.

Auctioneer W. T. Eddy will conduct a sale at the Macleod ranch, four miles north of Barreille, on Wednesday next, commencing at 1 o'clock. For particulars see bills or advertisement in the April 28th issue of The Blairmore Enterprise.

BLASPHEMY VERDICT UPHOLD
AND EDITOR GOES TO JAIL

TORONTO, May 8.—The appeal of E. V. Sterry, editor of the Christian Enquirer, against 60 days' imprisonment for blasphemy was dismissed by the second divisional court yesterday.

Appeal from a conviction for having published blasphemous libel was entered on behalf of Sterry on March 16th last, the charge arising from statements published in the Christian Enquirer. He was sentenced to 60 days at the local jail farm by Judge Coatsworth. Deportation was ordered following Sterry's release from custody. He is also serving a sentence for theft of \$200 from a Chinaman. The case is regarded as unique in Canadian annals.

Among the grounds of appeal was the claim that the indictment was defective in that it charged Sterry with committing an offence not covered by the criminal code and that it was worded in a manner prejudicial to the accused. Appellant also pleaded that the judge wrongfully excluded evidence which would have aided the jury in arriving at a decision as to the decency or indecency of the language used and that the jury was misdirected as to the law applicable and as to the evidence.

THE PASS FIFTEEN YEARS AGO

(The Blairmore Enterprise, 1912)

April 11.—At Monday night's meeting of the town council a bill was received from Capt. W. A. Beebe, claiming the sum of \$500 for an old log shack removed by the town off the Victoria street line west of his residence. At the same meeting, "Bill" Beard offered ten acres of land situated south of the town, for the purpose of a nuisance ground, the nominal price being \$1500.

Christian Ernst arrived in town on Sunday last from Philadelphia. Mr. Ernst is an experienced brewer and has been engaged by the Blairmore Brewing & Malting Co.

The trial of Fritz Eberts concluded at Macleod on Saturday night. He was convicted on the charge of murdering Constable George E. Wilmett, of the R.N.W.M.P., and was sentenced to hang at Macleod on June 1st. The murder was committed on the night of April 12th, 1908, at the rear of the Imperial hotel, Frank. For 4 years Eberts was at liberty and his arrest followed information disclosed by some women in a brawl at Michel. Matthias Jasbec, charged with being an accomplice, comes up for trial on May the 8th.

The Chicago Ledger prints the following false statement from Frank in their issue of April the 4th: "Huge rocks the other day rolled down Turtle Mountain, crushing through several cottages belonging to miners at the base of the mountain. No one was injured, because the occupants, fearing disaster, had moved out the last few days. The fissures are widening and no one here doubts but that the top will come down soon. Nine years ago, a similar slide occurred, when ninety-two people were buried under thirty-two feet of rock and mud."

The first issue of the Coleman Bulletin came out last week and is a fair looking sheet.

Reports from Toronto state that 124 Methodist congregations have voted in favor of church union.

Born, on March 31st, at Holloway's maternity home, to the wife of William T. Young, of the South Fork, a son.

Anxiety is being aroused over the failure to return to port of the Newfoundland sailing sealer, Young Harp, Capt. Bragg, which sailed on a second voyage to the ice fields after landing her first catch at Port Union in April. The Young Harp carried a crew of about forty men. Her first voyage was a record one, upwards of four thousand seals having been captured in less than four weeks.

THE BUSY MAN

If you want to get a secret done By some obliging friend, And want a promise, safe and sure, On which you may depend, Don't go to him who always has Much leisure time to plan, But if you want your favor done, Just ask the busy man.

The man with leisure never has A moment he can spare; He's always "putting off" until His friends are in despair. But he whose every waking hour Is crowded full of work Forgets the art of wasting time— He cannot stop to shirk.

So, when you want a favor done, And want it right away, Go to the man who constantly Works twenty hours a day. He'll find a moment sure, somewhere, That has no other use, And fix you up while the idle man Is framing an excuse.

TO ASSIST MINES AND
EASE FUEL SITUATION

Since the forecast of legislation in aid of the coking industry, in the speech from the throne last December, a considerable number of Canadians have been looking forward to the introduction of the measure. Although legislation of this nature had been under consideration by the government for some time, the suggestion contained in the report of the Duncan commission, relating to the erection of coking plants, was a verification of needed assistance to the coal-mining industry of Nova Scotia.

The Hon. Charles Stewart, minister of the interior, in introducing a bill that would provide a subsidy applicable to the erection of by-product coking plants that would use Canadian coal, presented a measure having the dual purpose of assisting the Canadian coal mining industry and at the same time relieving the fuel situation in the acute fuel areas of central Canada. The bill was passed by the house of commons, and received third reading by the senate on the 8th of April.

The terms of the subsidy provide an annual payment over a period of fifteen years, of four per cent of the cost of the plant in the case of a private corporation, and five per cent of the cost in the case of municipal ownership. It was recognized that a blending of coals is necessary in order to produce the best grades of domestic coke, and to assure the production of such a fuel, provision is made for an admixture with American coal up to 30 per cent. As a means of stimulating the use of Canadian coal, and protecting the investment, a sliding scale has been arranged whereby the use of 70 per cent of Canadian coal entitles the manufacturer to the full subsidy, but if less than 50 per cent is used no subsidy is paid.

WHAT IS KNOWN
ABOUT WOMEN

She is an angel in truth, a demon in fiction. A woman's the greatest of all contradictions. She's afraid of a cockroach; she'll scream at a mouse, but she'll tackle a husband as big as a house. She'll take him for better, she'll take him for worse, she'll split his head open and then be his nurse; and when he is well and can get out of bed, she'll pick up a teapot to throw at his head. She's faithful, deceitful, keen-sighted and blind; she's crafty, she's simple; she's cruel, she's kind. She'll lift a man up, she'll cast a man down, she'll make him her angel, she'll make him her clown. You fancy she's this, but you find she is that, for she'll play like a kitten and bite like a cat; in the morning she will, in the evening she won't, and you're always expecting she does, but she don't.—(Hank).

HIGHER MATHEMATICS

How many apples did Adam and Eve eat?

Some say Eve 8 and Adam 2—a total of 10 only.

Now, we figure the thing out far different.

Eve 8 and Adam 8 also—total 16.

If Eve 8 and Adam 82, certainly the total should be 90.

Scientists men, however, on the strength of the theory that the antediluvians were a race of giants, reason something like this:

Eve 81 and Adam 82—total 163.

Wrong again! What could be clearer than Eve 81 and Adam 812, the total being 893.

We believe the following to be the true and correct solution:

Eve 814 Adam and Adam 8124 Eve—total 8938.

Still another calculation is as follows:

Eve 814 Adam and Adam 81242 Eve—total 82056.

—Which proves the theory that Adam was a model husband and that figures don't lie, but sometimes lie to figure.

A Rebekah lodge is to be instituted at Stavelay tonight.

CANADA'S NATIONAL PARKS
IN CENTRAL ROCKIES

The year's programme of development in connection with Canada's national parks contains three items of unusual interest to tourists. The first is the opening of the new motor highway from Lake Louise to Golden; the second the building of an exceptionally attractive tourist hotel in Waterton Lakes park; the third, the inauguration of a through auto bus service between the United States Glacier park in Montana, and Waterton Lakes, Calgary, Banff, Lake Louise and Field. All of these developments will make possible a much wider and more democratic use of the national parks. With the construction by the government of modern highways through the parks giving direct connections from both the east and the west and the provision of motor camps, rest camps, and inexpensive bungalow hotels, a new era in the use of these beautiful national possessions began. Last year over 100,000 motorists alone visited the mountain parks which are accessible by highway, or more than came a few years ago to all the parks by rail.

The opening of the new Lake Louise-Golden highway, which is to be known as The Kicking Horse Trail, is being awaited with the keenest anticipation by the motorist. Not only will it add another national playground, Yoho park, to those already within his reach and give access to Field, Emerald Lake and the famous Yoho Valley, but it will enable him to cross the main Rockies by the well-known Kicking Horse Pass, paralleling the route now followed by the main line of the Canadian Pacific railway. To many, the culminating feature of the new road will no doubt be the last ten miles in which it passes through the spectacular canyon of the Kicking Horse, undoubtedly one of the most picturesque trips in the whole journey across the Canadian mountains. The fact, too, that from Golden he may travel southward by way of the existing provincial road through the Columbia Valley to Fairlands, British Columbia, and thence return via the famous Banff-Windermere highway to the east, completing a loop of nearly 300 miles entirely within the Rockies, or from Fairlands continue south to Fernie, British Columbia, and thence return eastward by way of the Crow's Nest Pass to Waterton Lakes park and Maseled, makes this new highway section perhaps the most important one constructed in the mountains.

With the building of a completely equipped and modern hotel at Waterton Lakes park, this charming reservation will at last take its rightful place among the most attractive of Canada's national playgrounds. As is well known this park lies contiguous to the United States Glacier park. Geography has virtually made them one playground, and the building of a hotel in Canada by the Great Northern Railway Company—an organization which has done much to develop Glacier park—and the establishment of regular boat and bus services between the two reserves, must result in greatly increasing the travel to the Waterton Lakes park.

The inauguration of a through bus service from Waterton to Banff, thence to Lake Louise and Field, will not only facilitate travel between Waterton Lakes, Rocky Mountains and Yoho parks, but also with the United States Glacier park. In the United States there exists already a highly developed system of highways which touches all the main national parks in the western States, and connecting bus lines make it possible for visitors to travel easily from one to the other. The new transportation facilities in connection with the Canadian parks will no doubt cause many tourists to extend their trips into Canada and to enjoy the wonders of the Canadian Rockies in the open-air, open-sky way.

Large numbers of tourists have motored through this district to eastern and western points during the past few days.

What do you get for
the price you pay?

DEALERS FOR CHEVROLET
CROWS' NEST PASS MOTORS
Blairmore, Alberta
Phone 105

VALUE is not a matter of price alone. It is simply what you get for the price you pay. Chevrolet is low in price—but not at the expense of quality. It is economical—because it is not cheaply built. It is superior in value because it gives more of the things you want for the price you pay.

First and always, quality counts with Chevrolet. There is quality in the distinctive Fisher bodies. In the long low lines. In the solid, lightning drive shafts. In the smooth, powerful valve-in-head engines. In the superb of refinements, such as air-brakes, oil filter, gas strainer, in the luxury of its appointments and

upholstery. In the long, real-time options: in the new Chevrolet. The Most Beautiful Chevrolet is Chevrolet. It is a car that is new and lower prices—the lowest for which Chevrolet has ever been sold in Canada.

401 Herald Building

Calgary

HOW ABOUT THIS ONE?

I like waxed floors.

After I rewaxed and polished up the other week, a neighbor who "just ran in" to see if I could use your phone for a moment" for the fifteen thousand nine hundred and seventeen-thousand, slipped on the glassy surface and had to be carried home unconscious.

The plumber who came to replace a section of leaky water pipe, and grossly overcharged me, lost his footing at the head of the cellar stairs. I don't think I ever saw a man fall harder. They say he will be able to leave the hospital in two weeks.

A woman, who was collecting funds with which to establish free beauty parlors for Hottentot girls, sat down unexpectedly in the hall and slid half way to the kitchen door. She left at once, laughing hysterically.

Uncle Harry, who regularly invites himself to visit us for an indefinite period every year, forgot to be careful on the landing and descended the remaining stairs in a very unconventional fashion. He did not miss a single tread. I know, because I counted thirteen distinct thumps. Next morning I helped him out to the taxi that was to take him to the station. As I said before, I like waxed floors.

Change or Exchange

Customer: "Can I change these pants at this counter?"

Clerk: "Well, I'll tell you, mister, we have quite a few women shoppers, so maybe you'd better go to the dressing room in the rear."

Japan recently had the heaviest snow storm in fifty years and at Nigata the Prefecture was surrounded by twenty feet of snow.

Use of lipstick by school girls is prohibited in a decree issued by the minister of education in Prague, Czechoslovakia.

Reg—"Liza, what fo' yo' buy dat odder box ob shoe blackin'?"

Liza—"Go on, dat ain't no shoes blackin'; dat's my massage cream."

HORN
BEER

HOW DO YOU
LIKE THIS NAME
FOR A NEW BEER?

We asked for suggestions for a name. We were swamped with letters and telegrams. Over 14,260 names were submitted and after serious consideration the name

Horn Beer

was selected, symbolic of the drinking cup of the ancients. Nine contestants sent in this name, consequently the \$100.00 prize will be divided.

The Prize Winners

H. Marshall, 528 19th Ave. W., Calgary.
Dor's Chéyne, 811 6th Ave. W., Calgary
J. W. Rott, 11131 85th Ave., Edmonton
H. Greaghey, 1512 16th Ave. W., Calgary.
V. L. Brown, 1225 16th Ave. W., Calgary

K. Edwards, General Delivery, Calgary
H. A. Edwards, Albert Park, Calgary
G. A. Sinclair, Red Deer, Alberta
R. B. MacKenzie, 10944 89th Ave., Edmonton

DON'T FORGET THE NAME

HORN

It's the Standard Type of Canadian Lager
It's been maturing for many months
It's a new name but not a new beer

A local Scotchman disqualified himself last week by throwing away the Christmas tree that might have done another year. Of course, he did it while in a state of absent-mindedness.

Maiden Aunt—"And what brought you to town, Henry?"
Henry—"Oh, well, I just come to see the sights, and I thought that I'd call on you first."

A golfer, when he plays with you, Should speak when he is spoken to, And keep his score card free from fable—
At least as far as he is able.

BLAIRMORE, ALBERTA

The regular meeting of the town council will take place on Monday next.

The United church tennis courts are now in good shape and playing commenced Wednesday.

Woman wants work by day or week.—Mrs. Zeuchem, No. 36 Madawaska Street, Blairmore.

Mr. A. Dube left here by Monday night's train for Quebec city, where we understand he has accepted a position.

A dance will be held in the Lundbreck hall on Friday night of next week, under the auspices of the hall committee.

Baul Charlon is one of the large number of local folks who have invested in the newest cars. Paul's new fancy is a Chevrolet Tudor Sedan.

John T. Sterling, chief inspector of mines and chairman of the Workmen's Compensation Board, was a visitor to Blairmore on Friday last.

Church notice in the Manchester (England) Guardian: Service at 10.30 a.m. Subject: "The Three Great Failures." Choir, sermon, pipe-organ fertility.

Local Oddfellows and Rebekahs are observing the 108th anniversary of the founding of the order tonight. Ceremony commences at 7.50 and all members are requested to be on time. A social will follow the anniversary services.

Two carloads of new autos were unloaded here on Monday for the Crows' Nest Pass Motors. The shipment included Chevrollets, Studebakers and one of the beautiful "Erskine Sixes," which is now being demonstrated.

The premises of the Union Meat Market were considerably enlarged and renovated recently and we understand Mr. Zak plans on further improving his market facilities here. He has just installed an electric auxiliary refrigerator.

We regret to learn of the death of Mrs. Harold Easterbrook, formerly Miss Gladys Lovell, which occurred at Calgary on Saturday morning. The remains were shipped to Pincher Creek, where interment took place on Monday afternoon. Mr. and Mrs. Harold Easterbrook have for some years resided on a farm at Summerview. Mrs. Easterbrook was thirty-two years of age and is survived by a husband and three small children.

Local and General Items

"That's a new one on me," said the monkey as he scratched his back.

The youngest of Jack O'Neill's family has been very ill for some days.

Mr. Williams, provincial health inspector, was in Blairmore on Friday last.

Joe Jasbee, youthful and clever violinist of Hillcrest, who attained second honors at the provincial musical festival last year, came third at Calgary this week.

Every now and then we notice items in the daily press headed: "Fined Under Vehicle Act." Often nowadays parties are found under the vehicle after the act.

Mrs. Ernest Campbell, of Calgary, a niece of Mrs. W. Howe, is spending a holiday with her sister, Mrs. Brocklehurst, at Coleman and is also visiting her aunt in Blairmore.

Mungesser and Coli, French aviators who undertook a Paris to New York flight, have been missing for several days and hope for their recovery is practically given up.

The largest single consignment of salmon eggs ever shipped in Canada was made recently by the department of marine and fisheries to the upper Fraser River, B.C., consisting of fifteen million sockeyes.

Charlie Howe spent a couple of days in town this week. Charlie is nursing a badly smashed finger, having injured same while following his employment as engineer at the Royalite Oil well at Jumping Pound.

A whist dance and dance will be held in the Oddfellows' Hall at Bellevue on Friday night of next week, under the auspices of the West Canadian Band. Whist at 7.30. Six-piece orchestra for the dance.

While workmen were engaged building out the old Victoria mine at Goldboro, Nova Scotia, water broke through from the harbor and flooded the mine. The only man below in the shaft at the time had a narrow escape from drowning.

Donald Dewar, now residing at Kimberley, and who was here yesterday, disposed of his home near the MacLean school to Mr. Peter Patterson, Sr., who in turn has sold his residence on Le-Roi Avenue West—Rossland Miner.

An energetic salesman at the Crows' Nest Pass Motors the other day received a surprise when he remarked: "In this car you will feel just as if you were at home." Henspecked Bill replied: "Show me another make!"

Keeping Up Business
A clergyman was conducting a funeral in a western state when two shots were fired outside the church. The undertaker rushed out but returned in a few moments, smiling.
"I've secured both those customers for us," he whispered to the parson, with pardonable pride.

**VERDUN LEIGH WINS
MEDAL AT ALBERTA
MUSICAL FESTIVAL**

At the Alberta Musical Festival, held at Calgary this week, little Verdon Leigh, daughter of Mr. and Mrs. James Leigh, of Cowley, one of last year's provincial champions, was again successful in Grade III. violin, making the highest marks on two difficult selections. She was awarded the first medal.

**ST. ANNE'S CHURCH SALE
ON TUESDAY NEXT**

The ladies of St. Anne's church will hold a sale of home cooking and tea in the Moose Hall on Tuesday next, May the 17th. Tea will be served from 3 to 6. At 8 p.m., a card party and social will be held. Please keep this date open and bring your friends.

Miss Sarah McVeoy was a Lathbridge visitor over the week end.

Henry Petlot is erecting a small implement store on main street, Parkland.

An exchange remark: "Inn-experienced servants are the best for hotels."

About all the average man knows about music is that it's the thing he always has to face.

LOST—A Gold Brooch, Sunburst design.—Finder please notify The Enterprise.

One woman dislikes eating upon another almost as badly as the other dislikes to have her do it.

Prizes will be awarded to successful candidates at the Alberta Musical Festival at Calgary tomorrow night.

The new Great Northern hotel at Waterton Lakes National Park has been granted a beer license by the Alberta Liquor Control Board, in accordance with the laws of the province.

Mr. Gordon Steeves arrived from Calgary on Monday morning, after an absence of several months, during which he was obliged to have his right arm amputated. Gordon is looking fairly well.

A new national park, covering approximately one thousand three hundred and seventy-seven square miles, has just been established under the name of "Prince Albert National Park," in northern Saskatchewan.

Motorists will be glad to learn that the Blue Trail south of town is to be straightened. This will eliminate two railway crossings. The proposed road will run on the west side of the railway across the provincial demonstration farm.—The Claresholm Review-Advertiser.

T. H. Stedman suffered a severe accident on Monday evening when on stepping from the bath tub at his residence he fell and broke three ribs, one of which is said to have punctured a lung. Mr. Stedman is, yet unable to recline and is suffering considerable pain, but his physician says he is progressing as favorably as could be expected under the circumstances.

In the list of greatest living Canadians as established by readers of MacLean's Magazine, Dr. F. G. Banting, discoverer of insulin, leads the list. Dr. Chas. E. Sanders, discoverer of Marquis wheat, is second, and following him come in order: Premier Mackenzie King, Sir George E. Foster, Henry Wood, Sir Robert Borden and Rt. Hon. W. S. Fielding, the last two being tied.

Jack Morton had a most exciting experience one night last week when walking over the Webb Creek summit enroute from Carbondale River to Hillcrest. Near the summit he was approached by a big grizzly mother bear. Jack was fully equal to the situation and allowed her to hug him "two times." Jack was then let loose and allowed to continue his journey, whistling on the way "Ain't Nature Grand."

Let's all get busy right now and boost for the big Diamond Jubilee of Confederation in Blairmore on July 1st and 2nd. When writing your friends, tell them about it and get them to arrange their visits here for the occasion. Get into the spirit of the occasion and let us put it across with a bang. Diamond Jubilees only come once in a lifetime. The Elks' annual summer carnival will also demand some of your attention during the same period. Remember, the Best People on Earth are always out for the best; the brighter and better side is their aim to attain and maintain. Buy your carnival tickets early. They are going like hot cakes and every day getting hotter. Praps the lucky number is near.
